

This is regarding radio station 94.3, K-Love, which my family & I have listened to for the past 4 years. We are also monthly financial supporters of the station which is a listener supported station. We feel it has been a wonderful addition to the radio community and would be deeply missed if broadcasting was no longer able to reach this area. Not only is the music uplifting but the programs which are aired are truly in the spiritual & emotional interest of all those who choose to listen. The very fact that it is solely supported by listeners & has remained on the air for a # of years, even through economic turmoil should be ample proof in itself that this station is widely listened to and cherished by many. We ask that you seriously consider these comments and continue to keep K-Love 94.3 FM on the air in our community and all the others that it broadcasts to. Thank You, The Lavelle family
